   - [ ] Maybe

10. Do you know how to eat sushi?  
    - [ ] Yes  
    - [ ] No  
    - [ ] Maybe

## Conclusion

Compare your answers in Part I and II. Count the number of times that your answers were different for the same numbered-question.

Reflect on how biases or opinions are formed without having much information about a person or thing. How accurate or fair are you when this is done? How can you eliminate unfair judgments?
